I found the Purpose of my Life	Dr. C.K. Bhardwaj	23

The " **small i** " represents the individual who identifies with his personality " **Body - Mind** " .. and the " **big I** " represents the individual who identifies himself / herself with his / her " **Eternal Soul** " .

The " **small i** " and the " **big I** " .. in togetherness .. represent harmonizing of the personal **Body-Mind** identity with the **Eternal Soul** identity.

"As far as we can discern, the sole purpose of human existence is to kindle a light of meaning in the darkness of mere being."

Carl Jung
